Education

Bachelor of Science in Computer Science

May 2027

Concentration: Human & Visual Computing

Mississippi State University (MSU) – Starkville, MS

GPA: 4.00/4.00 | Shackouls Honors College

Skills

Web Development: HTML | CSS | React | Bootstrap | RESTful APIs

Programming Languages: JavaScript | TypeScript | PHP | Python | C++ | C#

Tools & Platforms: Unity | Git | GitHub | Visual Studio Code | MySQL | SQLite | Figma | Procreate

Experience

Web Design Intern

May 2026 – Present

College of Forest Resources – MSU Agriculture and Natural Resources Marketing

- Develop and maintain college websites within a 40+ site network, keeping content accurate and up-to-date
- Build new department websites from scratch and from client-requested templates, including custom databases
- Update and revise publications, content, and databases to meet industry and accessibility requirements

Research Lab Member

January 2026 – Present

High Fidelity Virtual Environments (Hi5) Lab – Dr. Adam Jones, MSU Computer Science & Engineering

- Operated live theatrical projections for *Fahrenheit 451* using QLab, syncing cues to live performance timing
- Edited production footage in Adobe After Effects and captured visual assets from Unity for the projection
- Filmed and edited an instructional video tutorial documenting proper lab equipment operation for future use

Webmaster

September 2024 – May 2026

Lab Rats Comedy – MSU Student Improv Comedy Troupe

labratscomedy.com

- Design and maintain the club's official website, improving event visibility, engagement, and ticket sales
- Implement responsive layouts and update content regularly to enhance usability and user experience

Research Assistant

September 2024 – January 2025

AI in Safety Symbols – Dr. Adam Piper, MSU Bagley College of Engineering

- Evaluated 20+ generative AI models for consistency, accuracy, and bias in safety symbol interpretation
- Generated and cross-evaluated diverse safety messages to assess their effectiveness and reduce cultural bias

Projects

FedEx Alert Management Dashboard | HTML, CSS, JavaScript, Figma

mikheil17.github.io/FedEx-Alerts

- Collaborated with FedEx to design a dashboard with card categorization, filtering, history tracking, and deletion
- Prototyped interfaces in Figma, incorporated user survey feedback, and presented the final demo to stakeholders

The Last Knight of the Sun | Godot

github.com/Mikheil17/The-Last-Knight-of-the-Sun

- Narrative designer for a 2D eldritch horror metroidvania, creating a story arc, world lore, and branching dialogue

Robot Play | Robotics

- Wrote, designed, and directed an original play performed by robots, handling assembly, audio, and live operation

Pop Art Wordle | HTML, CSS, JavaScript

mikheil17.github.io/Pop-Art-Wordle

- Designed a fully interactive Wordle variant with dynamic game management, audio feedback, and state transitions

BCI Weeping Angel Experience | Unity, C#, OpenBCI

- Developed a real-time horror game using BCI hardware to detect blinks as input and trigger game state changes

Custom Programming Language | C++

github.com/Mikheil17/Custom-Programming-Language

- Built and implemented a compiler/interpreter for an original programming language from scratch in C++

Awards & Publications

President's List — Fall 2023, Spring 2024, Fall 2024, Spring 2025, Fall 2025, Spring 2026

Published Poet — *Conduit* Literary Magazine (James Worth Bagley College of Engineering, est. 2026)

Master Storyteller, 1st Place Written Stories — Story State Storytelling Competition, MSU (2026)
